Interactive Short: Web

Template of an interactive short film for being reproduced in a website.

Requirements

1. AngularJS 7.1+

Usage

To run the server, please execute the following from the root directory:

1. Install dependencies.

```
npm install
```

2. Build the project. The build artifacts will be stored in the `dist/` directory.

```
ng build
```

> **Note**: Use the `--prod` flag for a production build.

3. Run a server.

```
ng serve
```

> **Note**: Navigate to `http://localhost:4200/`. The app will automatically reload if you change any of the source files.

Development

Code scaffolding

Run the following command to generate a new component.

```
ng generate component component-name
```

You can also use

```
ng generate directive|pipe|service|class|guard|interface|enum|module
```

Tests

Running unit tests

Run the following command to execute the unit tests via Karma.

```
ng test
```

Running end-to-end tests

Run the following command to execute the end-to-end tests via Protractor.

```
ng e2e
```
